

Natalie Hollenbaugh

10707 Wilkins Ave, Apt 5
Los Angeles, CA, 90024

github.com/nahollenbaugh
nahollenbaugh@gmail.com

Education

University of Texas	2018-2021
<i>MS Mathematics</i>	<i>Austin, TX</i>
University of Washington	2014-2018
<i>BS Mathematics (Comprehensive), BA Latin</i>	<i>Seattle, WA</i>

Projects

Android app Minesweeper game

github.com/nahollenbaugh/mines

- Created a complete app with robust gameplay and persistent settings and score storage
- (In progress) Implemented game statistics and storage via Room
- Included a correct solver algorithm to provide hints

Elliptic curve arithmetic

github.com/nahollenbaugh/ecg

- Wrote an implementation of elliptic curve groups over prime quotients of \mathbb{Z} and some related algorithms
- Unit testing with HTF
- Web interface using Yesod web framework

Skills

Relevant coursework: algorithms and data structures (uw cs), database systems (uw cs), cryptography (uw math) introduction to statistics (ut math, as a ta)

Languages: Java, Haskell

Elementary tools: Android Studio, Linux, T_EX

Teaching and Service

Graduate student teaching assistant; TA specialist 2018-2021; 2021-2022

- Calc I, Calc II, Differential Equations, Introduction to Statistics, Business Calculus and MATLAB
- Held course sections, wrote, administered, and graded quizzes, held office hours
- Helped business students learn to use MATLAB and taught basic programming concepts on-the-fly

Directed Reading Program 2019-2020

- Mentored undergrads in the University of Texas math department
- Helped students to define semester long reading projects
- Held one on one weekly meetings about their projects
- Guided students in giving talks in the program symposium

Sunday Morning Math Group 2018-2020

- Volunteered at a math circle where elementary through high school students work on enrichment problems and attend talks exploring concepts in math outside of the usual school curriculum

Drop-in tutoring 2018-2021

- Worked in university run drop-in tutoring program helping students with course material for undergraduate math classes
